- Sole purpose of E-MTBA is to have OC Parks to lift the global ban on E-Bikes.
- Have been going before OC Parks with attendance at Meetings, presenting petitions, and approaching their supervisors.
- OC Parks did not submit their letter of clarification asking for direction from State Wildlife on permitting E-Bikes within current trial areas with wildlife conservation oversight. The response from State Wildlife provided guidance to OC Parks on how to change their language to permit use of E-bikes in managed areas.
- E-MTBA has started approaching those with jurisdiction above OC Parks to get movement on the issue.
- Numerous State and Federal Statutes equate Electric Bikes at various levels (Class I, II, III) with normal bicycles.
- Surrounding counties have managed to allow E-Bikes within their Parks Departments with various measures of intensity.
- How does the E-MTBAssociation want to enlist SHARE to help?
